

Opportunity Investment List (OIL)

Frequently asked questions and answers

1. What is an Opportunity Investment List (OIL)?
It is a group (list) of people who have indicated that they would be willing to receive and review information with the possibility of investing.
2. Who uses the list?
DAK Renewable Energy will use the list for various investment opportunities. The names of people who respond will be confidential and will not be sold or used in any manner other than contacts by DAK Renewable Energy.
3. Why have a list?
There are 3 main reasons why....
 - a. **TIME** *The government basically has two ways to stimulate the economy. Bailouts and incentives. If we have projects and a base of interested people, we could move quickly as they announce the incentives.*
 - b. **GRANTS/LOAN** *It is much easier to obtain grants and guaranteed loans when you can document interested investors*
 - c. **LEVERAGE** *When negotiating deals our position is much stronger when we have a list of potential investors.*
4. What kind of projects can we expect?
 - a. *There have been a lot of ethanol and biodiesel projects in the last 10 years , some successful some not. There will be opportunities but they are not limited to biofuels. We will be looking beyond the traditional biofuels. We anticipate that all of our projects will have something to do with the environment or renewable energy.*
 - b. *DAK Renewable Energy is working on two projects that may be raising money soon.*
5. What does it cost to be on the list?
Nothing
6. What role will DAK Renewable Energy have with regard to these investments?
DAK Renewable Energy will generally be an advisor to companies who are soliciting investments. In connection with investment opportunities, neither DAK Renewable Energy nor its affiliates will take any role whatsoever in providing advice, recommendations, or evaluation of any investment opportunity, person related thereto or any aspects whatsoever associated with such investment.
7. How does DAK Renewable Energy get paid?
DAK Renewable Energy will not receive any commissions based upon money raised for a project. However, DAK Renewable Energy may receive consulting or other fees for companies who are soliciting investments. Each project will have a business plan with full disclosures of any potential conflicts of interests between DAK Renewable Energy and investors.
8. Do I have to invest?
No, but please return the enclosed form to indicating whether you would like to receive information about investment opportunities. If you elect to receive information, you have no obligation to invest.
